MICHIGAN MODEL AIRPLANE ASSOCIATION, INC.

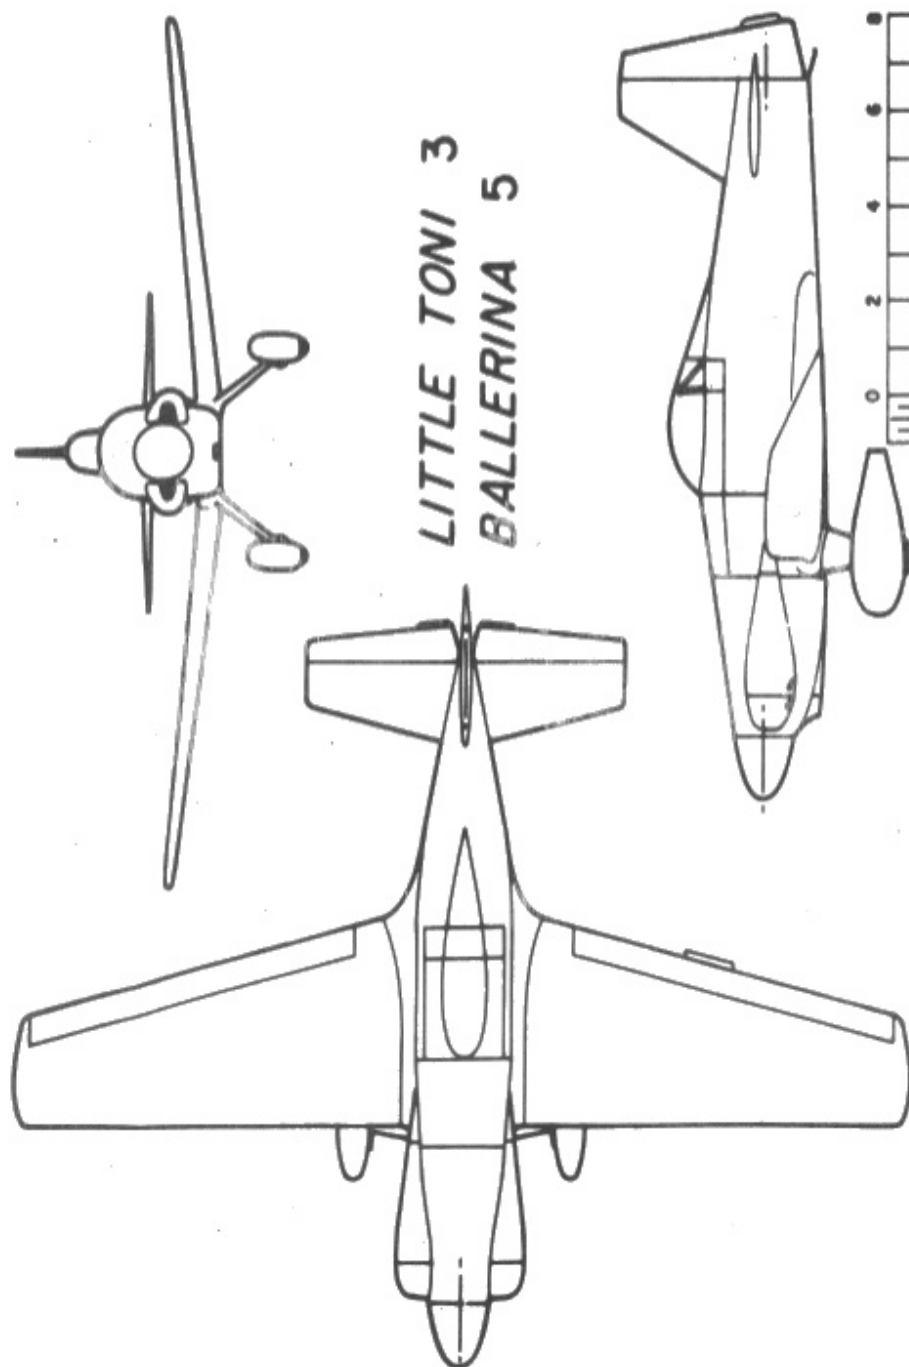

OFFICIAL GOODYEAR RACING RULES

1. Airplane must be either a model of an actual Goodyear or Thompson trophy racer.
2. The model must have a minimum consistent scale of 1-1/2" to the foot (1/8 scale).
 - a. All scales must be within 5% for top and side profiles with the exception of stab area and fuselage width.
 - b. Stab area may be increased up to 25% of wing area, maintaining the scale configuration.
 - c. The landing gear must exit from the scale position, but may be longer, higher, or swept forward (wheel pants are optional).
 - d. Apple cheek cowls as employed on full scale aircraft are recommended but are not required.
3. Model must have a paint scheme similar to those employed on full scale racers.
 - a. Model must have scale racing numbers on fuselage and rudder sides and on upper left wing.
 - b. Contestant's AMA number must appear on upper right wing as per basic AMA rules. It is recommended that this be scale in appearance (i.e., N 23459).
4. Maximum engine size is .1525 cubic inches.
5. Lines must be a minimum of .010" min. diameter with a length of 52-1/2 ft. (plus or minus 6") from centerline of model to handle.
6. Pull test to be 20 lbs.
7. Maximum fuel capacity is 1-1/2 ounces.
8. Heats will be of 80 laps for qualifying with the 4 best times advancing to the 160 lap final. No pit stops are required for either heat.
9. If time permits, the 4th thru 7th best times in the 80 lap race may fly in a 160 lap consolation race the winner of which qualifies for the fourth place in the final race.
10. All applicable AMA safety and GENERAL rules shall apply.
